

Double Rostering

- If a team is short players and has exhausted all of its recruiting possibilities, and is still in need of players to fill out the team, it may elect to double roster players in accordance with the VSL and Milton Youth Soccer policy on double rostering.
- Double rostering for will be offered first to players within the same age bracket who have chosen Milton as their primary team. If those players decline the opportunity, then double rostering can be offered to players who have chosen a non-Milton team as their primary team.
- Any player in a double roster situation will have to fulfill their responsibility, which includes practices, games and tournaments, to their primary rostered team.
- Both the primary and the secondary team coach must communicate with each other and agree on which players are to be offered the option of double rostering.
