

Guest Player Selection

- If a team is short players for a tournament, and the tournament rules allow for the participation of guest players, it may elect to choose players in accordance with the Tournament policy.
- Guest player slots will be offered first to players within the same age bracket who have chosen Milton as their primary team. In the event that there is not another division team to choose from within the same age bracket, or those players are unable to play, then the guest player slots may be offered to players within the same age bracket who have chosen a non-Milton team as their primary team OR to second year players in the age bracket below.
- Any player in a guest player situation will have to fulfill their responsibility to their primary rostered team.
